WHAT IS AN INTERNSHIP?
An internship is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths; and give employers the opportunity to guide and evaluate talent.
- NACE

WHO IS ELIGIBLE TO PARTICIPATE IN THE MULTIDISCIPLINARY ENGINEERING INTERNSHIP PROGRAM?
All students majoring in General Engineering (GEMDE) must complete an internship (EDSGN 495) as a requirement for graduation. A minimum 2.0 GPA is required. Students are eligible for an internship after sophomore year.

WHEN SHOULD I APPLY FOR THE INTERNSHIP?
We encourage students to begin searching for an internship at least one semester or 4-6 months prior to needing the internship.

WHEN WILL THE INTERNSHIP TAKE PLACE?
Internships take place during the summer semester after the 2nd or 3rd year. You can begin your internship once it is approved by your faculty advisor, is officially registered on LionPath, and you and your site supervisor agree on a start date.

HOW MANY ACADEMIC CREDITS AND HOURS ARE INVOLVED?
Students will earn 1 credit and must complete 300 hours during the semester they are interning.

WHAT IS AN APPROPRIATE INTERNSHIP SITE?
Internships must take place in a professional setting, under direct supervision. Internship site supervisors must have an advanced degree, and experience in the specific field of study.

IS THIS THE ONLY INTERNSHIP I SHOULD COMPLETE WHILE I'M IN COLLEGE?
No, students are encouraged to experience more than one internship during college. Talk to your counselor to discuss your options.
Getting Started

Step 1: Prepare

• Begin the internship planning process no later than one semester before the internship.
• Work with a career counselor to prepare your resume, cover letter, and references.
• Attend an Internship Planning Workshop to learn the process for registering an internship for academic credit.
• Meet with your faculty advisor to determine your eligibility to complete a required internship.
• Prepare for interviews by using Interviewing.com and/or participating in a mock interview with a career counselor.

Step 2: Conduct an Internship Search

• Utilize the tools, resources, and events to the left to conduct a comprehensive internship search.
• Meet with a counselor to obtain a listing of established internship sites for your major.

Step 3: Secure and Register Your Internship for Credit

• Accept an internship offer.
• Visit https://www.abington.psu.edu/internship-application-process to access the letter template associated with your major.
• Provide your host employer with the letter template and request that it be completed, signed, and returned on official company letterhead.
• Submit your internship application and accompanying employer letter.
• Await approval from CPD and your academic department.
• Internships must receive CPD and academic department approval to be registered for credit.

Next Steps

• Once your letter is received by the deadline listed on the reverse side, Career & Professional Development will process your application and send it to your faculty advisor and the Registrar for approval.
• Once approved, EDSGN 495 will appear on your roster in LionPath.
• Report to your internship site on the date established by your site supervisor.
